

Layout Tour

Guil Rand's Fabulous 3 Level

Great Northern Pacific HO Layout

Sat. April 11th 3-5pm

1991 South State St,
Springville, UT (801)362-0343

Guil's layout is a work-in-progress like most of our layouts. Heavy into the steel industry including all things that support it: open hearth, blast furnace, roller mill, coal mine load-outs, and so on... several large yards, hundreds of cars, oh and don't forget the passenger trains, plus all kinds of freight opportunities. This is a large layout, that means aisles are tight, but cozy. It is in Springville but well worth the trip. Car pools available- see Pete Harmon (914-319-0430).

All ages are welcome, and as usual, your best layout visiting etiquette will be expected. Refreshments will also be on hand.

(See reverse side for map and directions.)
